

Power & Speed

Power & Speed -

The Combination Reel with the outstanding design

Power & Speed -

The Combination Reel with the largest arbor and the highest speed retrieve.

Power & Speed -

The Combination Reel for the fastest fish.

Power & Speed -

The *Power & Speed* has two retrieving handles:

- The short handle allows for a wrist retrieve which picks up line quickly;
- The long handle provides full when retrieving a fish.
- One spool revolution retrieves 20 inches of line.

Power & Speed –

- creates its own rod class :
The Short Two Hand Rod
- this rod is easier to cast over a long periods of time
- the rod cast longer distances with less effort
- the reel comes with a “window” made of polycarbon that protects the finger against the rotating spool.
- is delivered in a protecting plastic suitcase.
- Comes with an adjustment of your own rod or together with a custom made new rod.
